

PURCHASING SHEET (KVCS)

1) Non-Brand(Any) Damper(Butterfly valve) with motor (DKK 328)

- Please check the diameter of the exhaust pipe before buying. It is also generally mentioned in the exhaust fan system specification.

Amazon(De) Link: <https://www.amazon.de/dp/B07PLCWBWG>

2) SwitchBot WIFI Switch 2PM (DKK 180)

- Make sure to get a 2 PM version of the relay switch. (Go with the same brand as the currently owned smart hub if the party already has one.)

Amazon(De) Link: <https://www.amazon.de/dp/B0DWX3H8M5>

3) SwitchBot Door Window Sensor (DKK 156)

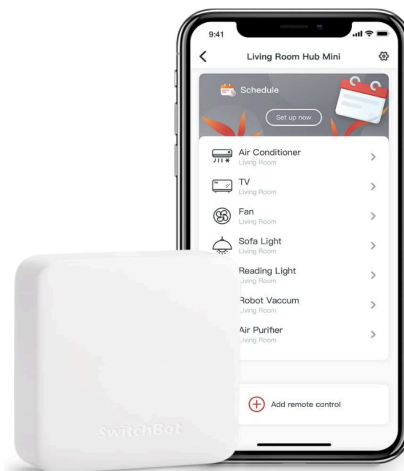

- *This helps in the autonomous functionality of the system without any human intervention. The party can also opt for a dual switch compatible with SwitchBot Hub if he/she want to do the same at the press of a button.*

Amazon(De) Link: <https://www.amazon.de/dp/B094XZ8H5H>

4) SwitchBot Hub Mini 1 (DKK 274)

- *This helps program SwitchBot devices and talk to each other. There are recent versions available in the market, but this one is the oldest and cheapest.*

Amazon(De) Link: <https://www.amazon.de/SwitchBot-Mini-Smart-Remote-Control-White/dp/B07TTH5TMW>

- 5) The electrician also needs some wires, a plug, a screw driver and double-sided tape to attach the relay to the damper's body.
